

Appendix A

Territorial Coding

Below is a colored, territorial map overlaid over Iraq's administrative units. Grey represents ISIS, whereas Green represents Kurdish Regional Forces.

Lenient: At least 90% of the administrative unit is highlighted as controlled by a faction.

Strict: All territory is highlighted as controlled by a faction. Small portions that are occupied by other factions will elicit a *Contested* coding.

Example: the unit below would elicit a coding of *ISIS Controlled* under the Lenient definition, and a coding of *Contested* under the Strict definition (the difference emphasized by area under the black circle)

Appendix B

Alternative Territory Coding

“Lenient” Version
